

SIMS

helping  
schools  
inspire

# Why SIMS is the whole-school solution for free schools

"As a free school it is important for us to **demonstrate progress**. We wanted to give teachers the tools to plan targeted lessons that encourage every child to achieve more. Our choice of SIMS is key to this."

Wesley Davies,  
Dixons Trinity Academy

## Apps for teachers

"Our teachers *love the flexibility* of the SIMS Teacher app. They can easily access SIMS in the classroom, the staffroom or even at home, and the data goes straight onto the system."

Christine Terrey,  
Harbour Primary & Infant School

## Personalised to school roles

"Everyone - from teachers to office staff to senior leaders - *is completely rejuvenated* by SIMS and feels it has helped them perform their roles more effectively."

Marisa Maietta, Keswick School

## Track pupil progress

"We have a *clear view of how children are moving forwards* and at what pace, with a breakdown for individuals or groups. SIMS Assessment is a great tool for analysing the progress of children in a whole range of ways."

Claire Chilvers, Mersey Vale Primary School

## Support the most complex timetables

"Timetabling with SIMS has a number of *unique advantages*, including being able to copy curriculum blocks and structures from one academic year to the next. Cover is also now a simple process."

Mustapha Laroussi,  
The Hemel Hempstead School

## Calendar Integration

Combined timetable and calendar view with Google and Office365 integration

## Integrated finance

"SIMS Financial Management System is *incredibly powerful* and we get every report we need from the system. We know we can produce all the reports the auditors want!"

Alison MacArthur, Wigmore School

## Supports your submission of statutory returns

Easily submit returns such as school census and workforce returns, saving valuable time

## Monitor personal achievement

"As leaders we can *ensure that no child is left out* when it comes to rewards as we can keep track of how many times a child has been 'celebrated'."

Linda Davis, Wistaston Green Primary School

## Support pastoral care needs

"There is a strong correlation between attendance, behaviour and progress. SIMS *reveals the whole story* and the patterns that might be preventing a child from achieving their full potential."

Wesley Davies, Dixons Trinity Academy

## Easily create reports

"SIMS is *easy to use* and customising reports is straightforward. Even people that haven't been trained in this area are able to pull out information for colleagues."

Kathy Jones, Newport Girls' High School

## Single sign-on

Manage desktop and cloud services easily with a single login for staff and pupils

## Parent, staff, pupil web portals

"It's the *access to instant communications*. When we complete reports, we send parents an email to say that their report is ready. They then log into the site and have instant access to their child's report, from whichever device they are using." Simon Rowlands, Sale Grammar School
